In the afternoon a match was played between the "Morning Stars," of London, and the "Stars," of St. Thomas, for the second prize in the third class. The game was a very spirited one, indeed just as much so as any of those which had taken place in the first or second class. It was called at the sixth innings, and, as the score will show, won by the "Morning Stars" by 21 runs:—

Umpire—Mr. Moore, "Erics," St. Thomas.

In anticipation of the arrival of the Eckfords, and the great match to take place between them and our Picked Nine, naturally but little interest was manifested in the matches above mentioned. They sunk into utter insignificance beside the great issue. The United States champions had been confidently announced by the committee, by the distribution of hand-bills and advertisements in the press; and in obedience to a largely-signed requisition, his Worship Mayor Graydon appointed a half-holiday, in order that those who wished might be present at the match. Early in the afternoon, therefore, between 2,000 and 3,000 people assembled on the grounds, both stands being crowded. At the time a match was in progress between two third-class clubs. The assemblage patiently regarded this game, which of itself would not have attracted many to the field; but as the minutes flew by, and the Eckfords still absent, a feeling of disappointment and disgust took possession of a large number, who retired in consequence. At length it became certain that the champions, even if they were on the way, could not reach London in time to begin that afternoon; and rather than totally disappoint those assembled, the first nines organized a match on the moment, and went at it with good spirit for a time. A great deal of the play, however, looked like "fooling," and was scarcely as careful as if a stake was involved.

The public were very much dissatisfied with the turn affairs had taken, and some were not slow to express a strong opinion that the ar-
