

Interesting Base Ball Match

Yesterday afternoon the first regular base ball match between the two clubs of this city, the London and Forest City, took place, and proved highly interesting. The "Forest City Club" has been organized about six weeks, the "London" only one week, so the result was in a measure to be expected—a victory for the Forest City. The batting of the latter was much superior to their opponents, but the fielding of the London was rather the best, especially that of Mr. R. Southam, who made some excellent catches. The batting of Mr. Tiffin, on the part of the Forest City, and Mr. Jarvis, of the London, was particularly good. The following is the number of runs made by each man respectively, and the number of times "out":—

FOREST CITY.

	OUT.	RUNS.

Runs made by Forest City..... 59

The following is the total score of each inning, nine being required to complete the game:—

Forest City, 5 6 2 2 11 15 10 11 1—59
 London, 2 3 1 5 2 2 1 4 16—37

A return match is in prospect, when we hope a more closely-contested game will be the result.
