

BASE BALL.—A match was played on the ground of the Maple Leaf Base Ball Club at Hamilton on Saturday last, between the first nine of the Upper Canada College Club, and a picked nine kindly got together to try the metal of the College boys by Mr. James Young. The Hamilton nine included some of the veteran players of the Maple Leaf Club, and proved too strong for their youthful antagonists, scoring forty-five against thirty-four of the College boys, after seven innings some of them finely played. Our Toronto representatives have only taken up the game during the last two weeks, since the cricket season was over, and are not quite up to all the points of the game; but the skill they already have acquired, and college pick and determination, will soon render them triumphant, when they have mastered the details and made themselves more fully acquainted with the science of this—to them new—game, which our neighbours across the borders have brought to such perfection. Mr. Young expressed his belief that, with a week or two more practice, the College Club would easily hold its own against any club in Canada. The Hamiltonians treated the boys with more than usual courtesy and kindness, and made all of them look on their visit to the "Ambitious City" as one of their most pleasant holidays. The following is the score:—
